## PROFESSIONAL EXPERIENCE

### Graph Inc.

C++ Developer

Sep 2024 - Jan 2025 (full time)

- Worked as part of a professional C++ team developing a **Windows EDR** (Endpoint Detection and Response) solution.
- Identified and fixed critical bugs, ensuring stability and reliability.
- Developed and integrated new features to enhance the product.
- Optimized performance to improve efficiency and reduce system resource usage.

### Med Fanavaran Plus

Qt/C++ Developer

Feb 2024 – Apr 2025 (part time)

- Member of a team developing an **Ultra Sound** imaging device.
- Involved in the design and development of various software functionalities.
- Responsibilities include:
  - ✓ Developing measurements and touch panel functionalities.
  - ✓ Contributing to the overall software architecture and design.
- Using **Qt C++** and **QML** extensively for development, with the core application running on Qt Widgets.

### PIARAZ

Qt/C++ Developer

Dec 2023 – May 2024 (contractor)

- Designed and developed a comprehensive software solution for existing hardware (**ARINC 429** logger) used in the avionics industry and commercial airplanes.
- Enabled hardware connectivity, IO control, and data capture/display with extensive additional functionalities.
- Implemented complex chart displays using **Qt QML WebEngine** and the **CanvasJS** library, integrating web pages fed by C++.
- Developed **50+ packet parsers** to process received packets and display real-time parameter information.

### DevSpec

Software Developer

Dec 2018 – Dec 2023 (full time)

- Primarily develop software using **Qt C++** and **QML**, focusing on user-space applications for devices running **embedded Linux**.
- Collaborate with a small team of specialists, each focusing on different layers including OS and hardware.
- Involved in projects requiring additional skills in **HTML/CSS**, **Node.js**, **Qt Widget**

## EDUCATION

### ➤ Master Of Science 2016-2018

Amirkabir University of Technology  
(Tehran Polytechnic) Tehran-Iran  
Electrical Engineering – Digital Electronics  
**Thesis:** Video Stabilization and Image Enhancement

### ➤ Bachelor Of Science 2011-2015

Isfahan University of Technology  
Isfahan-Iran  
Electrical Engineering – Telecommunications

## SKILLS

C++(11/14/17)

Qt FrameWork

QML

Git

## Languages

English (Intermediate)

Persian (Native)
